

Fused glass

Fusing technology

uses the principle of individual parts and layers of flat glass together. It gives the opportunity for the rise of such shapes, colours and structures that other technologies are unable to produce.

Production schedule consists mainly of glass plates, bowls, trays, candlesticks of decorative as well as gastronomic use.

Prices for goods

All the prices stated on www.maximus.cz are in EUR€ and CZK (Czech crowns) and include packing charges. The prices of products on the pages www.maximus.cz are stated with V.A.T.

Customers from the countries of the European Union (E.U.) will pay the prices including the above stated tax (except companies with V.A.T.).

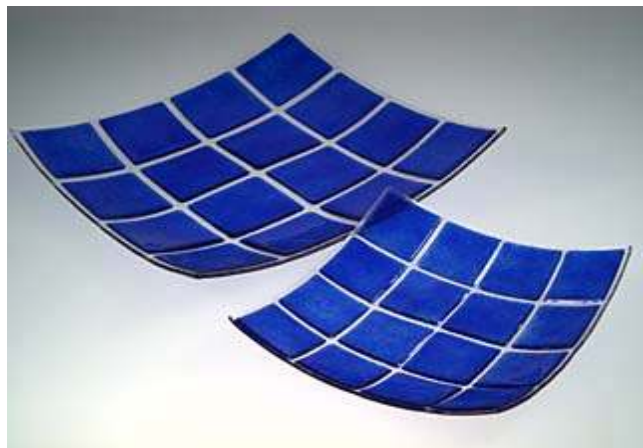

Other customers, who are not from the countries of the E.U. will pay the prices without that tax. They can save up more than 15% of the final price of goods.
